Recorded from commercial VHS. Released to back-up Alive III. In between live concert footage are interview segments with the band backstage or in the tour bus. No tracks (instead of "Take It Off") were added to this video that were recorded on the Revenge tour, all songs are taken from Alive III. A lot of emphasis is put on the strippers before the song "Take It Off". The fans wanted to see more interviews in the bus or backstage. Image of the songs from Detroit 1992 is not good, but was done of purpose, same image quality as the "I Love It Loud" music video from Alive III. The 4 vintage live clips were added to this video to fill the 90 minutes. It would have been more interesting to see songs that didn't make it to the album ("Parasite", "War Machine", "Shout It Out Loud"...)instead of the 4 vintage live clips.
